

**IN THE SPECIFICATION:**

Page 6, lines 23 to 31, replace the paragraph with the following amended paragraph.

Referring to fig. 4, the gripping means 11 of the hearing aid are arranged at surface 15. The gripping means 11 comprises a ~~cut~~cut out region 16 in the surface 15, where the cut out region 16 is open in a downward direction as seen in fig. 4. Further, a free space 17 is arranged inside the hearing aid 1 at the surface 15 as seen in fig. 2. The cut out region 16 is bordered sideways by parallel edge parts 22 and 23 of the wall surface 15. The parallel edge parts 22, 23 each has a recess 24. The recesses receive a thickened portion ~~25~~27, seen in fig. 6, of the narrow section 14. Thereby the accessory is frictionally fastened to the hearing aid when the narrow section 14 is slid in between the edges 22 and 23 and the thickened portion ~~25~~27 is lodged in the two recesses 24.
